WORK EXPERIENCE

Software Engineer (Frontend) - Better - New York, NY - June 2021 - Present

- Reviewed the quality of code for a web app used by real estate agents, which contributed to an increase in code readability as well performance improvements
- Designed test plans and wrote test cases for our React components with Jest. Resulted in a 35% increase in test coverage in one sprint.
- Reduced our development time by 25% through the creation of reusable React components

Application Developer - Lifion @ ADP, New York, NY - July 2018 - May 2021

- Design, implementation, and testing of new features for an HCM web application, as well as maintenance and enhancement of existing features
- Quickly achieved fluency with an internal platform, applied and refined knowledge of web development best practices daily, and utilized a high degree of communication and collaboration with coworkers and other teams.

Social Media Manager - The Dodo, New York, NY - May 2015 - April 2017

- Managed The Dodo's Facebook account. Helped increase page likes by over 300% in a period of 10 months.
- A/B tested headlines resulting in a 25% increase in traffic to our site.
- Worked closely with editorial and video teams to ensure that we were creating content that resonated with our audience.

PROJECTS

Delish- React, Ruby on Rails

- A full-stack application inspired by New York Times Cooking – it allows users to browse, bookmark, and share recipes.
- Utilized AWS S3 to allow users to store recipe images in the cloud. References to images are saved as attachments in a PostgreSQL database.
- Used a polymorphic association on Likes model - enables users to like both Recipes and Comments.

TaskManager - React, Express

- A web application that helps users organize their daily tasks. Used React to create a fast rendering interface and Express to build the server.
- Used SASS stylesheets to create a UI that is consistent across a variety of screen sizes.

EDUCATION

App Academy, 2018

1000-hour immersive full-stack web development intensive

Wesleyan University, 2015

Bachelor of Arts: English Literature, Film Minor

SOFTWARE

JavaScript | React | Ruby on Rails
Redux | SQL | TDD | RSpec | AWS
Heroku | Ruby | JQuery | HTML5 | SCSS
CSS | Git | SQL | Photoshop | OOP
